STRATEGY

smn DIVERSIFIED FUTURES FUND is a fully systematic Managed Futures Fund (CTA) capitalizing on market divergence in a broad range of global futures markets. Investment and risk management decisions are based on medium-to-long term market directionality, inter-market relationships, volatility, long and short term correlations and the overall risk regime.

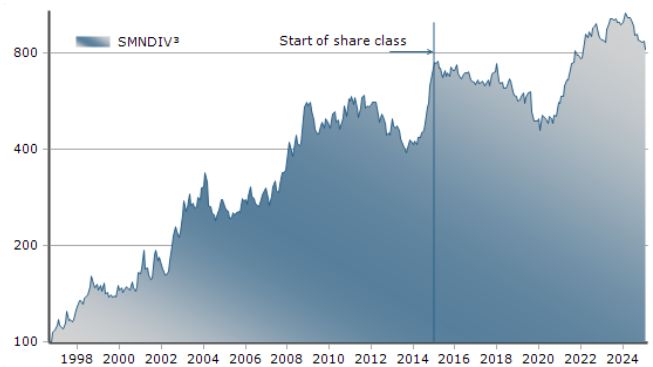

- Main differences to a standard long term trend following approach are:
- maximum level of diversification by meaningful exposure to alternative and synthetic markets
 - active reduction of portfolio risk concentration
 - dynamic risk budgeting based on the overall market risk regime
